Intelligent Document Processing (IDP) Solution

AURA DCap
AI-powered document data capture

Intelligent document data capture solution

Business needs to be empowered with tools that improve workplace efficiency and reduce operational cost. Documents, record management, and information extraction from them are one of the pain-points even today for almost every business function.

This needs an elevation from automated data capture technology to 'Intelligent' Data Capture technological enhancement. Intelligent capture software does not need any templates, keywords, formal definitions, taxonomies, or any indexing to execute data extraction, information processing and final output. It extracts right set of information, regardless of size, format, language or even symbol used in documents of any types.

MOURI Tech's Intelligent data processing (IDP) solution - AURA DCap, extracts wide range of data from simple to complex or unstructured documents. AURA DCap has ability to continuously auto-learn using its AI algorithms and specific business rules. It is compatible with legacy as well as modern ERP systems. AURA DCap is modular, configurable, customizable and available as public or private cloud solution.

Capture data from any document (handwritten, PDF, scanned or other)

- Invoices
- Purchase orders
- Shipping documents
- Contracts & agreements
- Billing documents
- HR forms & applications
- ID cards & passports
- KYC and Tax documents etc.

Key Features

Template less setup

Train AURA DCap model with your document

Any format document

Handwritten, PDF, scanned or other

Scalable

Supports high volume and fast processing transactions

Multi language support

Works well with European, Arabic, Japanese & Chinese languages

Enterprise level monitoring

Error handling and monitoring analysis

Business process integration

Integration with RPA workflows and ERP

Object detection and classification

Signatures, logo, radio button, checkbox, tables etc.

Built-in security

Secure to handle documents from anywhere

Built on explainable AI

Transparent to your system processes

Auto learning with intuitive UI

State-of-the-art UI helps simple ways to train, modulate & analyse performance

Start today with a **Free One Week POC**

AURA DCap: Process Flow

Save time and money by eliminating data entry and manual steps by **95%** in your document data extraction processes across the business.

Business benefits from AURA DCap

Reduced operational overheads

Move resources to higher-value tasks

Improved operational efficiency

Automated processes with accuracy and speed

Simplified processing

Embed to RPA/ ERP workflows

Resource optimization

Achieve >95% data capture accuracy

Incremental ROI

Auto-learn system resulting higher returns

Reliable

Processing over 5 million pages per month

Create real value in your business processes by automating extraction

About MOURI Tech

Established in year 2005, MOURI Tech has evolved as a trusted global enterprise technology solution provider for its customers from various industries across the globe; helping them transforming to an intelligent enterprise.

MOURI Tech has offices across five continents, headquartered in Dallas, Texas USA. With employee strength globally, MOURI Tech is equipped to serve customers 24x7. MOURI Tech has wide range of Enterprise IT Products, Solutions & Services to fulfil digital needs of the businesses of today and tomorrow.

Take forward your digital transformation journey with AURA DCap.

Aurasuite.ai is an enterprise AI solution, offering several ready-to-use solutions to help businesses leverage valuable insights from their data for innovation and growth.
