

Manual Data Entry is Inefficient, Inaccurate and Expensive

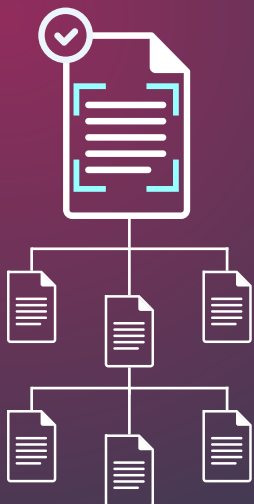

Many companies are still using manual data entry to process business documents. This approach is error-prone, time-consuming, and expensive. OCR image-based templates improve accuracy, but they are also expensive to set up and maintain.

Automate Document Data Extraction with DCap

aiAURA DCap leverages AI & machine learning to streamline and automate document data capture processing, enabling you to focus on higher-value tasks, increase speed and accuracy.

Save time & money by eliminating data entry and manual steps by 95%. DCap works with documents in any format without manual setup, auto validates the extracted data and seamlessly integrates with corporate systems.
